

Zongzi, moon cake packaging should not exceed three layers! National standard for limiting excessive packaging to come into effect on August 15

By MA Yong, WANG Huo, QING Xiufang

Abstract:

The problem of excessive packaging of mooncakes has not been solved for a long time in the past, seriously harming public environmental interests and increasing the burden of consumers. Over the years, the working group of China Biodiversity Conservation and Green Development has been promoting the reduction of mooncake packaging, calling for new policies, especially the revision of national standards, and conducting market research. After years of work and advocacy, the national standard for limiting excessive packaging is finally updated..

Key words:

Over Package, government standard, government seeking advice, reducing plastic & pick up plastic
