

Sergey Rybakov: business and financial sector should shoulder the responsibility of biodiversity loss

Author: Sergey Rybakov

Abstract:

Sergey Rybakov pointed out that in biodiversity conservation, business and financial sector should be responsible for it in not only an environmental issue, but also an economic one. Nature-based solution is far from enough in addressing biodiversity loss. In the future, more cooperation and effective measures are needed to save drylands areas and the rest of the world.

Key words: biodiversity loss, financial sector, Nature-based Solutions(NbS)
